About The River Valley Resilience Retreat

The River Valley Resilience Retreat is a non-profit organization in Saskatchewan founded by a City of Prince Albert Firefighter and a Social Worker/Correctional Officer/Veteran's Wife. A generous donation of land from a retired business owner/ pilot (and a current SAR Volunteer) has provided the space for this dream to become a reality.

The River Valley Resilience Retreat will be in the RM of Duck Lake and includes direct access to a spectacular river valley with over 100 acres of river access, trails, and natural springs. This beautiful location is surrounded by vast green pastures and several hundred trees, which provide protection from the elements and to those that wish to explore them. It is the perfect location to build **The River Valley Resilience Retreat**.
